

The Social Schedule is a comprehensive socialization list. This list is broken down into categories to ensure your range is extensive. Your puppy should experience a wide variety of people, places, sights, sounds and surfaces. Your efforts help ensure that he is curious, confident and resilient throughout his life. As always, your puppy decides who and what he wants to meet. Your job is to ensure that he is comfortable and that the world is a fun and safe place to be.

What To Do If Your Puppy Appears Frightened

(tries to pull away, tucked tail, ears pinned back, wide-eyed, won't take a treat)

- Quickly move far enough away from the 'scary' thing so the puppy doesn't appear frightened.
• If it helps, gently pick him up to walk away, and offer comfort and support.
• Feed, play or pet the pup to help him relax and gain confidence.
• You could try again from a far enough distance (pup is comfortable) or scrap it and try another time.

**Special Considerations**

**Crowds**

\*\*Puppies should never have to walk through crowds. If you are taking your pup to an outside event with lots of people, please use common sense and bring water, provide shade, and carry the puppy. Many outdoor activities with crowds are not puppy friendly.

**After Dark**  
Don't forget to work on socialization during the night time too! Just like us, the night time can appear different to a puppy.

**NOTES**

Record any additional unique socialization opportunities as well as anything your puppy appears uncomfortable about.
